Unsurpassed Range

Redefining long-range coverage and clarity with a unique antenna design and advances in noise-filtering technology.

Caller ID Announce

The handset and base audibly announce the name of the incoming caller. No need to find the handset to see who is calling. Makes screening calls that much easier.

Push-to-Talk

Use as a multiple-handset walkie-talkie system to instantly communicate with any or all of the handsets and base unit. No need to shout throughout the house anymore.
